

## Hollow HydroChill® 35

Headblock® technology reflects some UV rays to help keep the grass cool. Hollow grass blades absorb water particles and keeps the grass up to 30% cooler. Good for high foot traffic areas due to thickness and weight of pile. Varied yarn colours provide extra realism. Guaranteed to be one of the coolest grasses on the market. UV stabilised will resist fading from sunlight. CSIRO tested to be free of harmful chemicals

<b>PILE HEIGHT</b>	35mm
<b>TURF GAUGE</b>	9.525mm
<b>DENSITY</b>	14,700
<b>DTEX</b>	13,000
<b>NUMBER OF BACKING</b>	2
<b>BACKING TYPES</b>	PP + PP (Polypropylene + Polypropylene)
<b>GLUE TYPE</b>	Latex
